THE PROCESS

Consultation: We will meet with you to discuss and understand your business and future plans.

Property Search: We will then conduct a property search on your behalf and compile a report for you including rent and outgoings. We then work with you to select a shortlist from the report.

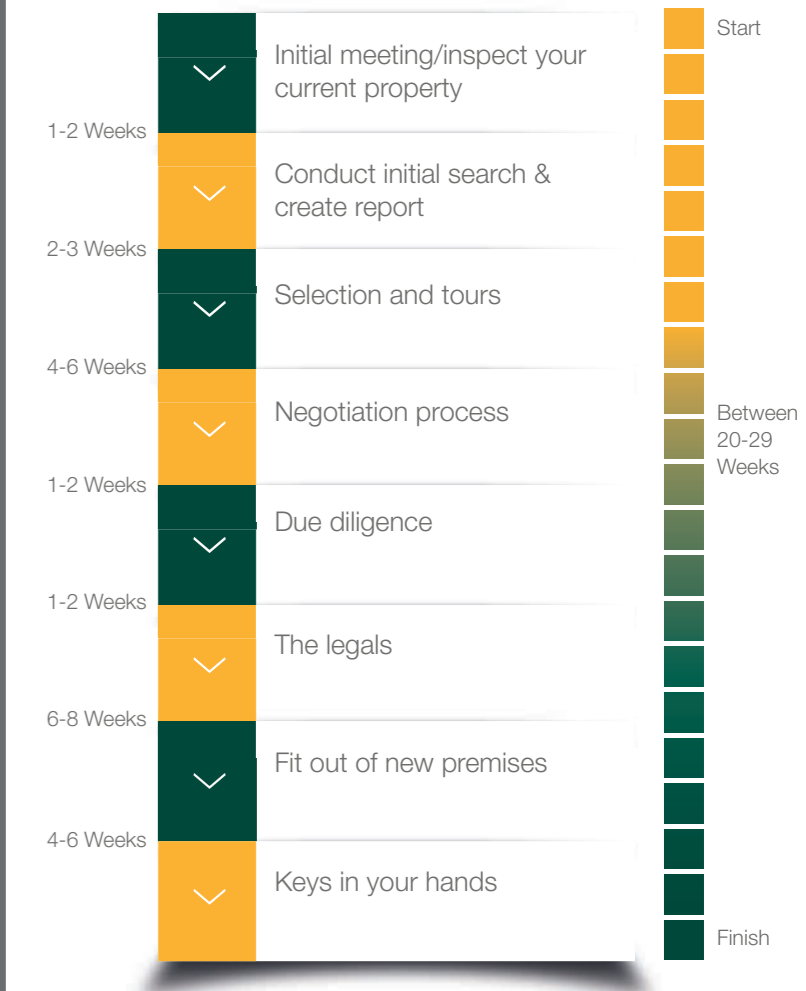

Viewings: We will arrange for a tour of each of the shortlisted properties and accompany you on the day to help with comparisons and expert advice.

Second Viewing and Negotiation: If we've found your perfect property, negotiations will begin to secure the most favourable terms for you. If you'd like to see further properties we will conduct a second search and repeat the shortlisting and viewing until you are completely happy.

Formalities: Once you are completely happy that we have found a property that meets all of your needs and we have secured you the best possible lease and financial terms we will arrange for all due diligence required including schedule of condition and surveys.

Signing: To complete the process we draw up heads of terms and instruct solicitors. We then liaise with the solicitors throughout the entire finalisation process. Our service does not end until the lease or sale has completed as advice is often required during the course of legal formalities. We believe that using our expert knowledge of deals done, landlords, properties and the market, we can generate substantial savings for occupiers compared to being unrepresented.

Finishing Touches: To add your own stamp to your new premises, we are well placed to offer advice on fit out, space planning, surveys and arrange quotes for works.
